

SilverSneakers

STAYING ACTIVE HELPS BUILD STRONG BONES

Get the exercise you need with SilverSneakers®, a benefit included with many Medicare Advantage plans and select Medicare Supplement plans.

You can take positive steps to safeguard your bones and reduce the risk of osteoporosis and fractures:

- Maintain a balanced diet, including getting enough calcium and vitamin D.¹
- Abstain from smoking and limit alcohol consumption.¹
- Take medications as prescribed.
- Engage in two types of regular exercise: weight-bearing (like walking, stair climbing, using elliptical machines) and muscle-strengthening (like lifting weights, using elastic bands, using weight machines).² If you have SilverSneakers, you can do these exercises at no additional cost.

SilverSneakers may give you the power to take control of your health. If your Medicare plan includes this benefit, you have access to:

- A nationwide network of participating locations,³ with group fitness classes⁴ at select locations
- SilverSneakers LIVE online classes and workshops taught 7 days a week by instructors trained in senior fitness
- SilverSneakers On-Demand library with 200+ online workout videos
- SilverSneakers GO mobile app with digital workout programs

“ Since enrolling in SilverSneakers, I’ve dramatically increased my physical activity. Each week I do yoga four to five times, lift weights twice, walk five to 10 miles and dance at least once. I have osteoporosis and prefer to manage it this way along with good nutrition. I am so grateful for SilverSneakers!

– Karen, SilverSneakers member ”

Always talk with your doctor before starting an exercise program.
